Aspiring Full Stack Developer with a focus on scalable web and cloud applications. Seeking to contribute my technical expertise, cloud certification, and software engineering fundamentals to a growth-driven tech organization.

## HARD SKILLS

### Web Development:

- Front-end: HTML5, CSS3, JavaScript, ReactJS, Java, TailwindCSS, NextJS, Wordpress
- Back-end: Nodejs (Express), MongoDB

### System Deployment & DevOps:

- Deployed on various servers (Dedicated Servers, VPS, Shared Hosting)

**Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Agile Methodology, Software Development Life Cycle (SDLC).

## EDUCATION

**S.S.C (2009 – 2019)** 77.94%

St John Convent High School

**H.S.C (Science) (2020 – 2022)** 71.69%

AE Kalsekar College

**Bachelor of Computer Engineering –Pursuing**  
**Rizvi College of Engineering** 70%+

## ACHIEVEMENTS

- 2024- Selected as a representative from my college to participate in the Smart India Hackathon (SIH).
- 2023 – Awarded 2nd prize in the Debugging competition at my college.
- 2025 – Awarded 2nd prize in “The Tech Chase” Tech quiz competition at college.

## CERTIFICATES

**AWS Academy Graduate – CF** April, 2025

**Forage : TATA** December 2023

**DevTown** March 2023

**Postman API** November 2024

## SOFT SKILLS

- Quick Learner
- Teamwork
- Communication Skills
- Research Skills

## INTERNSHIPS

### ARADHYATECH (January 2024 – February 2024)

- **Designed dynamic landing page:** Created a responsive landing page using HTML, CSS, and JavaScript to enhance user experience
- **Collaborated on Figma designs:** Developed wireframes and prototypes with the design team for seamless design-to- development transition
- **Optimized website performance:** Implemented image compression and code minification for faster load times and better user satisfaction

### ASTHATIC SOCIAL (January 2025 – March 2025)

- **Developed a professional website for a cybersecurity company – IBI Group** – using React and Tailwind CSS, ensuring a sleek, modern, and responsive user interface.

**Integrated front-end and back-end functionality** to deliver a seamless full-stack experience, focusing on performance, scalability, and clean UI/UX

## PERSONAL PROJECTS

### Online Quiz Management System

- **Tech Stack:** Python, Django, SQLite, HTML, CSS, JavaScript, Azure OpenAI GPT-4o, Flask
- Built a quiz platform with role-based access for Admins, Teachers, and Students.
- Enabled teachers to manage quizzes; students can attempt and view results.
- Integrated AI-based question generation using Azure OpenAI with Flask fallback.
- Added custom authentication, profile picture uploads, and email support.
- Developed an admin dashboard for managing users, courses, and statistics.
- Designed a fully responsive UI using Django templates and JavaScript.

**Ecommerce website** All Product E-commerce Website Design (e-commerce-by-shoeb.netlify.app)

**Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js

- Frontend developed using HTML, CSS and javascript
- Backend implementation built using Node.js, Express.js

*This project enhanced my skills in building a dynamic user interface, managing database interactions, and implementing secure authentication and session handling for a complete e- commerce experience.*
