TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), ReactJS, Next.js, Tailwind CSS, Responsive UI
Backend	Node.js, Express.js, Python, Django, FastAPI, REST APIs, JWT Auth, RBAC
AI / ML	PyTorch, TensorFlow.js, CNN, GRU, Grad-CAM, Azure OpenAI GPT-4o, NumPy, OpenCV
Databases	MongoDB, PostgreSQL, SQLite
Cloud & DevOps	AWS (Certified), Azure, Vercel, Netlify, CI/CD via GitHub Actions / Vercel
Tools	Git, GitHub, Figma, Postman, VS Code, Chrome DevTools, Unit Testing, Debugging

INTERNSHIP EXPERIENCE

- Full Stack Developer Intern | Asthatic Social

Jan 2025 – Mar 2025

 - Built and deployed the IBI Group cybersecurity production website (React, Tailwind CSS, Node.js/Express.js) — zero reported bugs on launch, full CI/CD on Vercel.
- Frontend Developer Intern | AradhyaTech

Jan 2024 – Feb 2024

 - Delivered a responsive client landing page (HTML5, CSS3, JavaScript) in a 2-week sprint; optimised assets and improved load time by ~30%.

FREELANCE PROJECTS

- IBI Group — Cybersecurity Website

Paid Client · 2025

React.js · Tailwind CSS · Node.js · Vercel

Live: ibigroup.vercel.app

 - Independently delivered a multi-section website — service showcase, contact form with backend validation, and lead capture — for a paying client.
- Restaurant Website — Food & Dining Platform

Client Project · 2024

HTML · CSS · JavaScript · Node.js

 - Built a complete restaurant web presence (Home, Menu, Gallery, Blog, Reservation) with a Node.js order API; owned full project lifecycle independently.

PROJECTS

- Automated Leukemia Detection System

★ National Hackathon — 12 hrs

Python · Django · DRF · PyTorch · CNN+GRU · Grad-CAM · React · TensorFlow.js · NumPy

GitHub: [Backend](#) | [Frontend](#)

 - AI diagnostic platform classifying leukemia subtypes from blood smear images using a hybrid CNN→GRU model with Grad-CAM explainability heatmaps — built in 12 hours.
 - JWT + role-based access control (Doctor → patients; Patient → assigned doctor) via Django REST Framework, with a doctor verification and feedback loop.
- Online Quiz Management System

Python · Django · Azure OpenAI GPT-4o · Flask · SQLite · JWT

 - 3-role platform (Admin, Teacher, Student) with JWT + RBAC; Azure OpenAI GPT-4o AI question generation; full admin dashboard with user management and audit controls.

EDUCATION

Qualification	Year	Score
B.E. Computer Engineering Rizvi College of Engineering	2022 – Present	7.95 CGPA
H.S.C (Science) AE Kalsekar College	2020 – 2022	71.69%
S.S.C St John Convent High School	2009 – 2019	77.94%

CERTIFICATIONS & ACHIEVEMENTS

Certifications	Achievements
✓ AWS Academy Cloud Foundations Graduate April 2025 ✓ Postman Student Expert Certification November 2024 ✓ Forage – TATA Virtual Experience Program December 2023 ✓ DevTown Full Stack Bootcamp Certificate March 2023	• Technical Head — Code Cell, Rizvi College of Engineering. • Representative — Smart India Hackathon (SIH) 2024. • 2nd Prize — Debugging Competition (2023). • 2nd Prize — "The Tech Chase" Quiz Competition (2025).
